Secuencias didácticas AICLE

El pasado 26 de octubre fueron presentadas oficialmente las 130 secuencias didácticas AICLE (en inglés, francés y alemán) para centros bilingües de Educación Primaria y Educación Secundaria. Junto a este material se publican los títulos de las correspondientes secuencias con el objetivo de dar a conocer, a modo de índice, los contenidos elaborados. Cada secuencia contiene una ficha de identificación del material AICLE, una tabla de programación, el contenido de la secuencia y, en su caso, material complementario (audiciones, flash card, presentaciones, etc.) y solucionarios.

Películas y documentales

Otros recursos interesantes para el aula bilingüe son las películas y documentales de actualidad, especialmente para la clase de Ciencias Naturales y Sociales. Además en las páginas web oficiales se incluyen normalmente actividades y materiales muy útiles en diferentes idiomas.
